

Not-Suck™ 2018

This isn't the main survey (that will come late June / early July), just an opportunity to give general feedback comments about the sub. Previously this was done during the main survey and then there was a separate survey afterwards to poll the changes. Last year we had more success asking for suggestions before and then polling in the main survey, so we'll carry on with the format.

1. How can we improve the subreddit?

Any general suggestions for additions to the sub or things you'd like changing. Don't hold back - constructive criticism is what we're looking for here.

2. Any changes you'd make to the main subreddit survey?

Once the survey is rolling it's difficult to make changes without invalidating previous responses, so it's good to know this stuff before hand. The format of the main survey will largely be the same as previous years unless these suggestions make it otherwise.

3. Any other comments?
