

# UNIXPORN SURVEY 2018

Welcome to the 2018 r/unixporn survey! Here we try to get an overall picture of what people use on their computers, the demography of our community, and your thoughts on some of the goings on in the sub.

**\*Required**

## Optional Questions

Lots of people seem to think that you have to answer every question: you don't. Only the questions with the red \* are mandatory, and specially all the questions on user demography and most on subreddit management are optional. Skip through those and you get to the questions about what you're using on your computers day to day.

1. Are you ready, kids? \*

*Mark only one oval.*

☐ Aye Aye, Captain!

### User Demography

Given that there's about ~~65,000~~ 110,000 of you now, we want to get to know you all a little better. All survey responses can be anonymous, though there's the option at the end to enter your Reddit username and be entered into a prize draw for some Reddit Gold. For that reason questions in the following section are all optional.

2. What's your gender?

*Mark only one oval.*

☐ Male

☐ Female

☐ Other

3. How old are you?

What are you, like 12?

## 9. How'd you feel about these changes?

These are things quite a few people have ask us to change but without general disagreement on direction.

Mark only one oval per row.

## 10. What's your opinion on the following policies?

These are policies suggested by the community either this year, or previously but are controversial. We'd like to know whether you'd support their implementation, or continued implementation as the case may be.

Mark only one oval per row.

|  | Support               | Indifferent           | Against               |

| Curated Submission System*             | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

\* - A good example of what's being proposed is how r/polandball handles it - before you're allowed to post freely in sub you must first show that you'll be consistently posting original, high quality content. Upside is that the quality of posts in the sub goes up significantly, downside is that the number of posts goes down significantly. The decision is yours!

Thanks for taking part in the survey, it's really appreciated. The results will hopefully help us better shape the sub to its users so we can all have a good time. More importantly though, it'll give us lots of pretty graphs to share with you!

73. Thanks for taking part in the survey!

If you fancy it, stick your username in here and we'll give a random user reddit gold as a token of appreciatio
