

# Not-Suck™ 2016

This isn't the main survey, just opportunity to give general feedback comments about the sub. In the previous 2 years this was done during the main survey and then there was a separate survey afterwards to poll the changes. This time I'm asking for suggestions before and then the main survey will poll those suggestions, which will hopefully get more people involved in the changes.

## 1. How can we improve the subreddit?

Any general suggestions for additions to the sub or things you'd like changing. Don't hold back - constructive criticism is what we're looking for here.

## 2. Any changes you'd make to the main subreddit survey?

Once the survey is rolling it's difficult to make changes without invalidating previous responses, so it's good to know this stuff before hand. The format of the main survey will largely be the same as previous years unless these suggestions make it otherwise.

## 3. Any other comments?

About the sub, life, \*nix, or anything!
